

Salim Oussayfi

Softwareentwickler

IBM Client Innovation Center
Germany

Salim Oussayfi
salim.oussayfi-cic@ibm.com

Bildung

- Mediengestalter Digital-/Printmedien (IHK)
- Multimedia-Assistent (IHK)
- Bachelor: Medieninformatik

Fertigkeiten in Practice: Breites Know-how in Full-Stack-Entwicklung, UI/UX-Design und der Konzeption robuster Softwarelösungen
Erfahrungen in der Branche/Industrie: Öffentlicher Dienst, Automobil, Telekommunikation
Tools: Git, GitHub, Bitbucket, Apache Maven, Jenkins (CI/CD), TeamCity, SonarQube, IntelliJ IDEA, VS Code, PyCharm, Jira, Confluence
Methoden: Objektorientierte Programmierung, Clean Code, Datenbank-Design, UML, Test Driven Development, JUnit, Mockito, Integrationstests, Pair Programming, Scrum, Agil
Technologien: Java, JEE, CDI, EJB, Angular, TypeScript, HTML5, CSS3, JSF, PrimeFaces, REST, JSON, XML, Hibernate/JPA, Oracle SQL, MySQL, H2, Apache Kafka, Kubernetes, Rancher, JBoss/WildFly, Ionic, Apache Cordova, Android/iOS Native SDKs, JS API, iText PDF Library, scikit-learn
Weiteres: Ausgeprägte Lernbereitschaft, schneller Wissenstransfer, Freude an neuen Technologien und hohe Motivation zur kontinuierlichen Verbesserung

Qualifikationen & Zertifikate

- AWS Certified Cloud Practitioner
- Azure Administrator Associate
- Azure AI Fundamentals

Kompetenzen & Interessen

- Moderne Softwareentwicklung, klare Architekturen und effiziente technische Lösungen
- Interesse an GenAI, neuen Technologien und intelligenten Systemen
- Freude am Tüfteln, Prototyping und kreativen technischen Ansätzen

Sprachen: Deutsch, Englisch

Badges

- Architectural Thinking
- Design Thinking
- Government Insights and Solutions (Silver)
- IBM watsonx Orchestrate Practitioner Advanced
- Generative & Agentic AI
- Blue Core Coach

Ausgewählte Projekte

COMED-R (Sprachassistent)
07/2024 – 08/2024
Softwareentwickler (BE/FE) - POC-Entwicklung eines Sprachassistenten zur Automatisierung von Prozessen beim Ärztlichen Dienst der Bundesagentur für Arbeit

COMED-R
07/2022 – heute
Softwareentwickler (BE/FE) - JEE-Full-Stack-Entwicklung mit Angular-Frontend sowie Schnittstellen- und Datenbank-anpassungen. Ergänzend Unit-Tests, Fehleranalyse und Code-Reviews

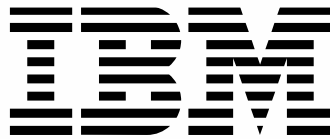

NDA (Obere Bundesbehörde)
05/2018 – 03/2022
Softwareentwickler (BE/FE) – Entwicklung und Implementierung von UI-Komponenten inklusive strukturierter Anforderungs-analyse sowie Konzeption und Umsetzung von Backend-Funktionalitäten und Datenbankdesign

Ausgewählte Projekte

Bundeswehr
06/2018 – 08/2018
UI-Entwickler - Transformation des bestehenden Online-Auftritts in ein responsives Design. Entwicklung von HTML-Templates zur Integration in ein CMS

AI Food-Ordering App
05/2024 – 07/2024
Softwareentwickler (BE/FE) – Entwicklung einer Food-Ordering-App mit Whisper-basierter Sprachsteuerung sowie Umsetzung einer nutzerfreundlichen, responsiven UI

MobilMapsShowCase
04/2018 – 06/2018
Softwareentwickler (App) – Implementierung und Vergleich verschiedener Map-Integrationen für native Mobile Apps und Web-Browser-Anwendungen inklusive zugehöriger UI-Komponenten

Education

- Media Designer for Digital and Print Media (IHK)
- Multimedia Assistant (IHK)
- Bachelor’s Degree in Media Informatics

Practice Skills: Extensive knowledge in full-stack development, UI/UX design, and the conception of robust software solutions
Experience in Sector/ Industry: Public sector, automotive, telecommunications
Tools: Git, GitHub, Bitbucket, Apache Maven, Jenkins (CI/CD), TeamCity, SonarQube, IntelliJ IDEA, VS Code, PyCharm, Jira, Confluence
Methods: Object-oriented programming, clean code, database design, UML, test-driven development, JUnit, Mockito, integration testing, pair programming, Scrum, agile practices
Technologies: Java, JEE, CDI, EJB, Angular, TypeScript, HTML5, CSS3, JSF, PrimeFaces, REST, JSON, XML, Hibernate/JPA, Oracle SQL, MySQL, H2, Apache Kafka, Kubernetes, Rancher, JBoss/WildFly, Ionic, Apache Cordova, Android/iOS native SDKs, JS API, iText PDF Library, scikit-learn
Other: Strong willingness to learn, fast knowledge transfer, enthusiasm for new technologies, and a high level of motivation for continuous improvement

Qualifications & Certificates

- AWS Certified Cloud Practitioner
- Azure Administrator Associate
- Azure AI Fundamentals

Skills & Interests

- Modern software development, clean architectures, and efficient technical solutions
- Interest in GenAI, new technologies, and intelligent systems
- Enjoyment of tinkering, prototyping, and creative technical approaches

Languages: German, English

Badges

- Architectural Thinking
- Design Thinking
- Government Insights and Solutions (Silver)
- IBM watsonx Orchestrate Practitioner Advanced
- Generative & Agentic AI
- Blue Core Coach

Selected Projects

COMED-R (Voice Assistant)
07/2024 – 08/2024
Software Developer (BE/FE) – Proof-of-concept development of a voice assistant to automate processes for the Medical Service of the Federal Employment Agency

COMED-R
07/2022 – present
Software Developer (BE/FE) – JEE full-stack development with an Angular frontend including interface and database adaptations, complemented by unit testing, error analysis and code reviews

NDA (Federal Authority)
05/2018 – 03/2022
Software Developer (BE/FE) – Development and implementation of UI components including structured requirements analysis, as well as the conception and implementation of backend functionalities and database design

Selected Projects

German Armed Forces (Bundeswehr)
06/2018 – 08/2018
UI Developer – Transformation of the existing online presence into a responsive design and development of HTML templates for integration into a CMS

AI Food-Ordering App
05/2024 – 07/2024
Software Developer (BE/FE) – Development of a food-ordering application with Whisper-based voice control and implementation of a user-friendly, responsive UI

MobilMapsShowCase
04/2018 – 06/2018
Software Developer (App) – Implementation and comparison of various map integrations for native mobile apps and web browser applications, including corresponding UI components
